Introduction

Transportation to and from school is a privilege. Abuse of this privilege may result in loss of transportation to and from school. When you lose your transportation privileges, you cannot ride a bus owned by the United Community School District during the time of the suspension.

Video cameras and audio systems are installed on all United Community School District buses. The information from these tapes can be used for disciplinary action. The cameras and audio systems will be on all buses to help ensure the safety of all students and United Community School District employees.

To perform this service safely and efficiently, the cooperation of the board of education, parents, students, principals, drivers and teachers is necessary. Special education students will be subject to the same disciplinary procedures, including suspensions from riding the bus as regular education students unless otherwise noted in the student's IEP. The IEP will be reviewed to be sure that there are not any special circumstances that would warrant alternative forms of discipline, especially when a bus suspension is under consideration. It is to be understood that in the event of a bus suspension, the student is still required to attend school and any absence during the suspension without a valid written excuse will result in school officials following the standard school truancy process.

Responsibilities of the Board of Education

The Board of Education is the policy-making agent of the transportation system, as well as of all other phases of school operation. It is responsible, by law, for the general operation of transportation. The board delegates the actual responsibility for district control to the Superintendent, and the board is the agency of appeal concerning administrative decisions.

The Board of Education, through the Superintendent and Transportation Director, plans bus routes and designates the bus stops.

Bus Conduct Code

All persons riding in school district vehicles will adhere to the following rules. The driver, sponsor or chaperones are to follow the school bus discipline procedure for student violations of this policy. Video cameras may be in operation on the school buses in accordance with Regulation 711.2R1.

- Bus riders will be at the designated loading point before the bus arrival time.
- Bus riders will wait until the bus comes to a complete stop before attempting to enter.
- Riders must not extend arms or heads out of the windows at any time.
- Aisles must be kept cleared at all times.
- All bus riders will load and unload through the right front door. The emergency door is for emergencies only.
- A bus rider will depart from the bus at the designated point unless written permission to get off at a different location is given to the driver.
- A rider may be assigned a seat by the driver.
- Riders who damage seats or other equipment will reimburse the district for the cost of the repair or replacement.
- Riders are not permitted to leave their seats while the vehicle is in motion.
- Waste containers are provided on all buses for bus riders' use.
- Permission to open windows must be obtained from the driver.
- Classroom conduct is to be observed by students while riding the bus except for ordinary conversation.

- The driver is in charge of the students and the vehicle, and the driver is to be obeyed promptly and cheerfully.
- Students will assist in looking after the safety and comfort of younger students.
- A bus rider who must cross the roadway to board or depart from the bus will pass in front of the bus (no closer than 10 feet), look in both directions and proceed to cross the road or highway only on signal from the driver.
- Students will not throw objects about the vehicle nor out through the windows.
- Shooting paper wads, squirt guns or other material in the vehicle is not permitted.
- Students will keep feet off the seats.
- Roughhousing in the vehicle is prohibited.
- Students will refrain from crowding or pushing.
- The use or possession of alcohol, tobacco or look-alike substances is prohibited in the vehicle.
- The Good Conduct Rule is in effect.

New Students

When a family has registered their student for school, the building secretary will notify the Transportation Department of the request for busing. When eligibility is determined, the parent will be notified by the school secretary or transportation department. If the student is eligible, the parent will be given a pick-up and drop-off time, bus number, and location to meet the bus. If the student is not eligible, the parent will be given the reason why. If there are any questions after eligibility is established, the parent can contact the transportation department at 515-432-5319.

Delay or Closing of Schools - Board Policy 711.8

If weather conditions or an emergency situation warrants the delay of school, the following procedure is taken:

- Because our first student is picked up between 6:45 AM and 7:00 AM, once the buses leave to travel their routes there is no turning back. School officials cannot call for a delay or closing after 6:00 AM. Preferably the decision will be made between 5:00 and 5:30 AM or the night before. Consideration for our students who live in the outlying and rural areas is the focus of the decision. School officials drive several back roads and highways within the district boundaries to evaluate road conditions. Communications are also conducted with the local news stations.
- Please understand that it is a delicate balance between calling a delay or cancellation or not. Weather can be fickle and conditions can be much worse just a few miles away from us in any direction.
- In the unlikely event that a cancellation is necessary following a delay call, that decision will be made no later than 8:00 AM as the buses begin to pick up students by 8:45 AM.
- Once a decision has been made to delay or cancel, parents will be notified of the decision via the district automated calling system, media outlets and the district website at <https://www.unitedcomets.org/>.
- Do not assume that because neighboring districts are delayed or canceled that the United Community School District will follow suit.
- The Superintendent will make the decision whether or not school should be delayed or closed.
- If school is delayed, it will be by two hours.
- Parents and students are advised to listen to the early morning news for school delays or cancellations. Please do not call the schools or the bus garage.

Hard Surface Roads Only

In the case where the district has determined that buses will run on hard services only: Drivers will inform parents/ students of pick up times. Keep in mind that your normal bus might not be the bus stopping at these stops. When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio and television, email, and social media. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, parents may be required to meet the bus at a predetermined area on a hard surface road or students will remain at, or return to the school until they are picked up by the parent.

Responsibility of Parents

There will be no daily bus passes issued. A bus registration form must be filed in order for you to ride a bus to and from school five days a week from one location to one location. Drop-off points may be a different location from the pick-up point, but they must be consistent. If other daily arrangements are needed, it will be the responsibility of the parent(s) to provide them.

We encourage parents/guardians to discuss the obligations and responsibilities with their student(s). Any violation or disregard for the rules or the expectations could result in a loss of riding privileges.
