3 v 3 SKILLS ACADEMY is a fun fast paced way to play basketball and also work on valuable basketball skills. We believe the 3 x 3 model is the best to develop a player's basketball skills and maximize their growth.

Benefits of 3 v 3: (1) Players have the ball more and get more touches (2) There is more space to play (3) Simplifies the game, enhancing learning and development (4) Easier to learn and play different positions (5) More repetitions of offensive and defensive situations (6) More playing time for each player (7) More decision making opportunities (8) Increase engagement and activity of all players

The players will play 3 v 3 FIBA style games. This is a fun and fast paced way to play 3 v 3. The players will play 10 min games with no break after scoring, no qtrs and no halftime. The first to 21 wins or the team with the high score at the end of 10 minutes will be the winner. There will be very little stoppage and play and the players will get alot of basketball skill work in as well. The players will be put on different teams each week and will be awarded points for each win that they get. At the end we will have a 3 v 3 tournament and champions for each age division.

The boys will have the chance to work on the basic fundamentals of the game and core skills that we want every player in our program to know. Those core skills include ball handling, shooting, passing, decision making, finishing, footwork, playing off two feet and competing. This will be done through skill development work, small group work, short sided games, and full court games. Skills sessions will be fast paced and move quickly. Players need to be ready to learn and work hard. **Note: the 5th-8th skill development camp will follow the strength and agility camp every Monday.**
